PROFESSIONAL SUMMARY

Dynamic Flutter developer with over 3.5 years of experience building high-performance, cross-platform mobile applications for enterprise collaboration and e-learning domains. Proficient in BLoC, HydratedBloc, and F-DDD architecture for scalable, offline-capable solutions. Skilled in Firebase, Node.js, and REST API integration, delivering real-time and interactive app experiences.

TECHNICAL SKILLS

Programming Languages: Dart, TypeScript, JavaScript, Python

Frontend: Flutter, Angular

State Management: BLoC, HydratedBloc, Provider

Backend & APIs: Firebase, SQLite, REST APIs, GraphQL, Dio, Chopper

Tools: Git, VS Code, Android Studio, Cursor AI, CI/CD Pipelines

Architecture: F-DDD, SOLID Principles

Other: Performance Optimization, Animations, Unit & Widget Testing, Agile Development

PROFESSIONAL EXPERIENCE

Flutter Developer | inLynk | Hyderabad | Feb 2025 – Present

- Developed the mobile version of inLynk, an Enterprise Collaboration & B2B SaaS platform connecting employees, partners, and clients.
- Implemented real-time messaging, feed posting, task/resource tracking, and push notifications using Firebase Firestore and BLoC.
- Applied F-DDD architecture for scalable, offline-capable architecture.
- Leveraged Cursor AI for rapid prototyping and improved animations and UI transitions.

Flutter Developer | WeXL Edu Pvt Ltd | Hyderabad | May 2022 – Jan 2024

- Built the mobile version of WeXL Schools, an e-learning platform integrated with Zoom and Google Meet.
- Developed modules for course content, live classes, and quizzes with efficient state management using BLoC.
- Led the development of a grocery e-commerce app with location-based store discovery and Razorpay integration.
- Published apps to Play Store and App Store ensuring optimized performance and clean architecture.

PROJECTS

- AI-Powered Expense Tracker:** Smart financial tracker leveraging Firebase backend for authentication and data management.
- Social Media App:** Real-time posting and chat features powered by Firebase Firestore with modern Flutter UI.
